OVERALL RANKINGS & PRICING COMPARISONS (cont.)

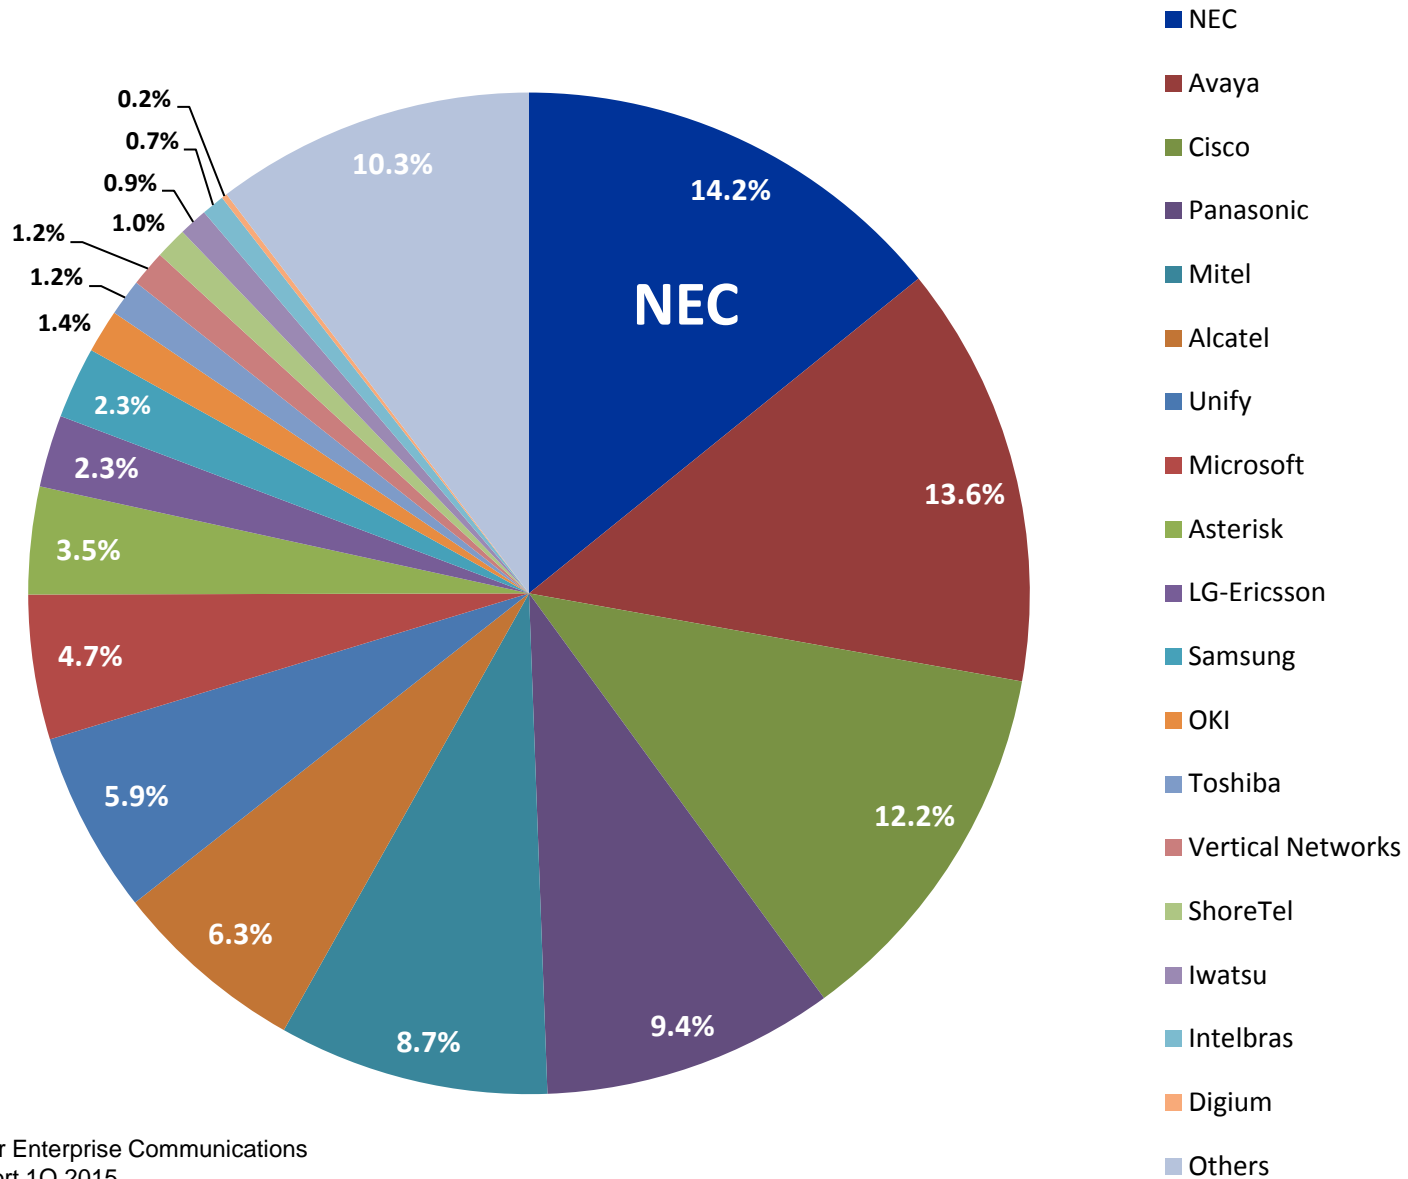

Who has the lowest Total Cost of Ownership?

The overall pricing comparisons were based on a simple five-year Total Cost of Ownership model. The following bar graph illustrates the TCO for all vendor solutions, including discounted price for initial and recurring costs:

NOTE It should be noted that actual discounts for any specific project will vary based on a number of factors including incumbency, size of the opportunity, geography, system integration partner, etc. We found the discount offered for the RFP session to be within the range of actual discounts for projects that we've participated in.

NEC #1 in Global Enterprise 2015Q1

Invest in your future with UNIVERGE 3C = *Choice & Flexibility*

Move from the realm of proprietary hardware into the world of a standards-based software application

Communications: Crossing the Divide

The Old Way

- Scarce Capacity
- Telco-Defined Comms Services
- Aligned Competition
- Hardware-Centric
- Location-Bound
- Capital and Labor Intensive

The New Way

- Commodity Infrastructure
- User Experience Matters
- Nonaligned Competition
- Software- and Web-Centric
- Open Applications/Services
- Business-Intelligence-Driven

Gartner

NEC

- Standards Based
- Open Interface / API
- Distributed Software
- COTS Hardware
- Low Cost Redundancy
- Scales Up and Down
- Network Agnostic
- Bundled UC&C Applications
- Simplified Licensing
- Efficient Use of IT Infrastructure

Feedback from the market

- Network Dependencies
- Single Vendor EI & MG
- Complex Licensing
- Expensive to Maintain
- Low Cost Redundancy
- Scaling Down Challenges
- Closed to Integration
- Limited UC&C Applications
- Requires Significant IT Infrastructure
